*We do not conduct any franchised degree programme of any foreign University at EMPI*

However, pursing the vision of incorporating Research & Case based learning in our pedagogy, EMPI’s effort got a fillip when its research proposal was accepted and awarded a major grant from EU in 1998 for conducting research alongwith Scuola di Amministrazione Aziendale (SAA), School of Management, University of Turin, Italy, Helsinki School of Economics & Business Administration (HSEBA), Finland.

Other parts of EMPI’s vision to maintain pedagogical parity with the best institutes of the world has been achieved through building faculty to faculty
network relationship with other European, American & South Asian schools whereby these institutions have option to sought each other’s help for exchange visits of students and faculty without any obligation to conduct each other’s examination or award degrees. Exchange of students wherever requested general understanding, and global exposure does not involve any fee payments to other institution.

Thus network arrangement with the foreign universities / institutions cover the following dimensions.
